SPP - Parquet Service

From the signals coming from the wood flooring industry in Europe it is clear that there is a high demand for companies providing services such as: installation, renovation and treatment of wood flooring.

To meet the needs of the industry SPP launched a new project:

SPP - Parquet Service - project aimed at supporting and preparing polish wood flooring installers for providing services on European markets, that includes marketing, legal and know-how support, language courses, OHS trainings

and more.
